

Fixture: cs_bad_dropped_gate (golden-bad)

Contract row 2: "NEW omits the one gate that catches defect D | golden-bad | exit 1, row D CAUGHT→MISSED ". Matches tasks.md T050's literal golden-bad clause verbatim.

- Defect D1: drops SAFE_MARKER .
- OLD config: [g_marker, g_noop] — g_marker catches D1.
- NEW config: [g_noop] — g_marker entirely absent from the manifest.
- Expected (expected.json): old_verdict=CAUGHT , new_verdict=MISSED , counts.lost=1 , superset VIOLATED, exit 1, named_defects=["D1"] .
