Fixture: plan_struct_causes / golden-bad-no-class

Identical to the golden-good fixture except RC-02's Class cell is EMPTY (blank -- no bolded token, no value at all). Per contract plan-research-structural-check.md SC-C-001: "class ∈ {CONFIRMED, REFUTED, UNDETERMINED}" -- a row whose Class cell is blank fails this membership check. Expected `causes` verdict: exit 1, naming RC-02.
