601

Legacy preamble — predates §11.4.104; carries NO attribution fields anywhere.

WIT- — legacy item with no attribution fields whatsoever

Status: Queued **Type:** Task **Severity:** Low

A pre-attribution legacy item: no Created-By / Assigned-To lines exist, and the round-trip MUST NOT inject empty ones.

WIT- — second legacy item to exercise multi-item legacy round-trip

Status: Ready for testing **Type:** Feature

Another legacy item with only the original metadata block.
